Written by Daniel May

Do you fancy spending a lavish weekend in London before Christmas? Then make one of the capital's newest luxury hotels your very own residence. The recently opened Conrad London St James is in the very heart of the action, with Buckingham Palace, Big Ben, the Houses of Parliament and Westminster Abbey all within a 10-minute walk.

But, it's not just location that this exclusive five-star retreat delivers on! If style is a prerequisite, all of the 256 bedrooms are beautifully decorated, each benefiting from extremely comfortable beds, sizeable TVs, super-spacious bathrooms with separate rain showers and bath tubs, and unique technology advances including Bluetooth TV connection, free wireless, fully automated Conrad Concierge App and online check-in!

After a relaxing night's sleep, you'll want to prepare yourself for the busy day ahead. So, sit down to a hearty breakfast, or why not order room service instead? Whether it's a full English or continental buffet that ticks your box, there's a range of delicious options to satisfy those morning cravings.

After a long day of Christmas shopping, chill out in the contemporary Blue Boar smokehouse restaurant, whether you're enjoying an evening meal or indulging in a sneaky nightcap. The steak is out of this world! Cocktails in the characterful Blue Boar bar are a sure way to guarantee you'll end your night on a high note! Or, order a digestif to be taken in the Emmeline's lounge, named after the 19th century British Political activist, Emmeline Pankhurst.

From the moment you enter the hotel's grand foyer, you will be greeted by the attentive Conrad team, and you'll soon become accustomed to the outstanding level of personal service throughout your stay. So, what are you waiting for? Treat yourself to an early Christmas present and book a few nights at one of London's latest and most opulent hotels, with none other than Her Majesty The Queen as your next-door neighbour!

There are some great seasonal guest packages including Shop the City by Conrad, connecting travellers to local cities and culture by way of a private shopping excursion, and the Christmas Afternoon Tea, bringing festive delights to anyone who samples it!
